**CUSTOM ENVIRONMENTAL SERVICES, INC.
NOW SERVING THE WESTERN SLOPE**

Environmental Contractor Expands with Opening of New Office Just Outside Grand Junction

ARVADA, CO – Custom Environmental Services, Inc. (CES), an environmental contractor that offers environmental, abatement, industrial vacuum, and training services, is now serving the Western Slope. CES has expanded and opened a new office just outside of Grand Junction, located at 889 20 Road, Fruita, Colorado 81521, and is reachable at 970-858-5160 or at www.customsvcs.com. The office will serve Mesa, Delta, and Montrose Counties, Glenwood Springs, and Utah and Nevada.

Acquisition of substantially all assets of Rippy Well Service, Inc. in Grand Junction, CO allows CES to offer Colorado's western region its environmental services as well as those services formerly provided by Rippy including industrial vacuum/hydro excavating services such as potholing, utility locating, manhole/vault cleanouts, general line cleaning and jetting, irrigation sump cleaning, debris removal, and industrial wet or dry systems.

"We're pleased to expand our presence to the Western Slope," said Jerry Marks, president of Custom Environmental Services, Inc. "Our services will provide additional resources to those in Western Colorado needing an environmental contractor."

Anna Maylett-Rice joins the new office as Senior Project Manager. She has more than 13 years of development and programming experience in the environmental arena and previously served as Indoor Air Quality Coordinator for the Mesa County Health Department.

For more than a decade, Custom Environmental Services, Inc. has served clients in private and commercial industries as well as multiple government agencies. CES offers emergency response, hazardous waste site cleanup, waste disposal and management, confined space services, groundwater treatment, and asbestos, lead, meth, and mold remediation, in addition to many other services. The company also provides training courses for professionals in the environmental industry.

“I believe our reputable approach, proven track record, rapid response, and focus on safety and prevention have allowed us to expand in tougher economic times,” added Marks.

With hundreds of subcontractor locations throughout the United States, CES has the resources to handle environmental, industrial, and waste management needs across the country. In addition to its Arvada corporate office the company also operates a regional Colorado Springs division that serves Southern Colorado, Northern New Mexico, and Western Kansas.

Custom Environmental Services, Inc. is dedicated to providing valuable services to their clients ensuring a healthy, clean and safe environment. With an excellent Experience Modification Rate (EMR), CES offers 24/7 services and a 24-hour national emergency hotline at 1-800-310-7445. For more information visit www.customsvcs.com.
