CUSTOM ENVIRONMENTAL SERVICES PRESIDENT TO SPEAK AT MOLD & METH CONTAMINATION SEMINAR

DENVER – Gerald Marks, President of Custom Environmental Services, Inc. (CES), a nationally recognized full-service, hands-on environmental contractor with offices in Denver and Colorado Springs, will speak at CLE International’s Mold & Meth Contamination Seminar held this Friday, June 11, at the Adams Mark Hotel in Denver. Marks will speak at 11:30 a.m. for about an hour on procedures and practices for mold and methamphetamine cleanup.

Marks has 18 years of health and safety/project management experience in the environmental industry and has managed over 1,250 emergency response situations. He manages multi-disciplinary personnel, reviews and approves budgets and forecasts, manages his company’s safety program, and oversees business development. He is also responsible for evaluating prospective projects for bid, approving estimates and proposals and marketing environmental services to clients.

As there is an increasing number of mold and methamphetamine issues and cases in Colorado, this CLE International seminar will educate attendees on how to identify and remediate the components of a meth lab and provide the latest legal and scientific research on mold and meth contamination. Among those in attendance will be emergency medical staff, firefighters, hazardous materials teams, fire protection and police agencies, property owners, builders and contractors, and plaintiff and defense counsel.

Custom Environmental Services, Inc., was established in 1998 and has since become Colorado’s hands-on environmental contractor, providing unsurpassed quality in stressful situations. The company tailors its services to each individual customer and unique situation with quick response time and a focus on safety and prevention. CES offers 24-hour, 7 day-a-week emergency response, asbestos and lead abatement and mold remediation, as well as other environmental health and safety services. For more information, log on to CES’ website at www.customsvcs.com.
